

## Life Science Probe Activity

In the spaces below, decide whether each sample is Living, Non-Living or Dead.

Write your explanation for your thinking in the space provided.

**Living** = sample exhibits specific characteristics of life.

**Non-Living** = sample never exhibited characteristics of life.

**Dead** = sample once exhibited characteristics of life, but does no longer.

Sample	L	N-L	D	Explanation
#1 Water				
#2 Granulated Sugar				
#3 Plant				
#4 Fossil in limestone				
#5 Boiled Egg				
#6 Earthworm				
#7 Apple				
#8 Aged Wood
